

## *Love INC of Treasure Valley Adopt-A-Product*

The New Hope Budget Program continues to grow and one of the vital components of this program is our food and toiletry pantries. Participating families can receive their weekly non-perishable food, meat, and toiletry needs, freeing up their money to pay off debt. Each family receives an average of 30 boxes of food over a period of a year. The program runs year-round and our enrollment is growing weekly. The need for increased and on-going donations is critical.

We are promoting a food drive called "Adopt-A- Product". Individuals (or families) can select a product from the list on the other side of this sheet and adopt it as their donation product. They can then purchase this item whenever they go shopping, watching for specials and sales. We encourage you to select a product you can easily remember to shop for on a regular basis. Multiple adoptions are welcome. Purchased items should be taken to your church Love INC collection box.

If you agree to be one of our "adoptive" families, please let your church contact, or our office (466-7810 x3), know what product you will be supplying. We want to make sure every product receives a family.

We hope you will join this inexpensive, but vital, promotion. Together we can make a difference in our community.
